Reading the Gospel of St. John in Greek: A Beginning, originally published by Caratzas (2002), empowers students at all levels to read and appreciate the Gospel of St. John and biblical Greek as a whole. The combination of text, vocabulary, and grammatical notes on one page enhances the reading experience for both practiced and beginning readers of Greek. Readers with training in classical, Homeric, or biblical Greek will find that the format enables rapid reading, comprehension, and retention. Readers with little to no Greek language training will be able to work directly with text from the New Testament, in conjunction with the introduction and appendix, in order to develop proficiency with biblical grammar, vocabulary, and idiom.

Reading the Gospel of St. Mark in Greek: A Beginning is an excellent resource for both the inexperienced and the experienced reader of Greek. The book presents the entire gospel of St. Mark with running vocabulary and notes—the same accessible format used by Norbert H. O. Duckwitz in his two other annotated editions of the gospels.

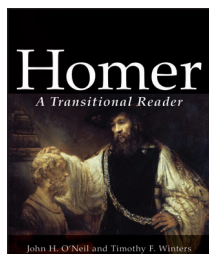

Thoughtful same-page annotations empower readers to appreciate the full text of the gospel of St. Matthew. As in the other two titles in this series, numerous features offer further support, including the introduction's summary description of the Greek alphabet, pronunciation, accents, and grammar.

These annotated editions of the gospels perfectly complement *New Testament Greek: A Reading Course*. See page 3 for more details on this introductory biblical Greek text.
